H-14 Robert W. (cont.)

Field Artillery (Mechanized), Ft. Knox 1934-1937; Army War College, graduated 1938; detailed to War Dept. General Staff and served with Mobilization Branch of G-3 Div. One of the architects for the mobilization plan for World War II.

Recognizing the coming importance of armor, he arranged upon the completion of his tour of duty with the War Dept. General Staff to be assigned to a newly activated armored unit. War service was as follows:

Organized and commanded 22nd Armored Field Artillery of the 4th Armored Division from Feb. 1941 to Feb. 1942.

Chief of Staff of 1st Armored Division Feb. 1942 to Sept. 1942. Went overseas with this Division, the first to leave the United States.

Promoted to Brigadier General 9-13-1942 (46 years of age) and returned to U. S. to command Combat Command B of 8th Armored Division. Commanding General until Sept. 1943.

Ordered to London in Sept. 1943 to assume duty of Deputy Chief of Staff of the Headquarters 12th Army Group. Assisted in organizing this headquarters and served with it through the invasion of the European Continent and until September 1944. This was the headquarters which exercised command of the American Ground Forces.

Assumed command of Combat Command B, 7th Armored Division in Sept. 1944 and fought with his unit in Holland with the British Second Army.

Assumed command of 7th Armored Division 10-31-1944. Commanded this division throughout the Battle of the Bulge, the drive to the Rhine, the breakout from the Remagen bridgehead, the clean-up of the Ruhr pocket and then, returning to the British Second Army, a drive across the rear of the German forces facing the Russians to the shores of the Baltic Sea.

Was promoted to Major General 1-4-1945 (49 years of age) immediately following Battle of the Bulge where the 7th Armored and its Commander received considerable praise, including the personal congratulations of General Eisenhower, for its defense of the important road center of St. Vith against six German divisions for six days.

The following are comments of military historians on this battle:

p. 74 "Battle for the Rhine", by R. W. Thompson:

"Long before the shape of the battle was clear to commanders in the field, reinforcements were moving to key points. The

U.S. 7th Armored Division speeding down from north of Aachen, picking up stragglers on the way, reached St. Vith and brilliantly commanded by Brigadier General Hasbrouck, revealed qualities rare in the United States Army. For not only could it advance with lightning speed, it could also fight a withdrawing action, disciplined and tight as a drum. "

p. 584, "The Struggle for Europe", by Chester Wilmot:

"At St. Vith too, the Germans found themselves forestalled --this time by the 7th Armored Division led by Brigadier General R. W. Hasbrouck, one of the great men of the Ardennes. .... Under Hasbrouck's leadership, St. Vith became a rock of defense on which the tide of assault broke and divided, flowing west in two channels. "

Following VE Day, commanded 7th Armored Div. in occupation duties in Germany until August 1945, when he returned to the U. S. , assumed duties of Chief of Staff of the Army Ground Forces. Retired from active duty because of physical disability incurred in line of duty 9-30-1947.

Subsequent to Retirement, during 1948 he served as a Military Advisor to the Hoover Commission, which was created to recommend changes for improving the functioning of the Executive Branch of the Government.

In 1949, he was elected Chairman of the Board of the Federal Services Finance Corp., a consumer finance company with headquarters in Washington and 22 subsidiaries, including one each in Hawaii, Germany, and England. He still holds this position.

Decorations: U. S. Distinguished Service Medal, Silver Star for gallantry in action, Legion of Merit, and Bronze Star with V for valor. Foreign decorations include French Legion of Honor and Croix de Guerre; Belgian Croix de Guerre and Fourragere and Polish War Cross.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the implementation of these practices. It details the steps involved in setting up a robust system for data collection and analysis. This includes identifying the key areas of focus, selecting appropriate tools and technologies, and training staff to ensure they are proficient in using the system. The goal is to create a seamless process that allows for easy access to data and quick analysis of trends.

3. The third part of the document addresses the challenges faced during the implementation process. It acknowledges that there may be resistance to change or a lack of resources. However, it provides strategies to overcome these obstacles, such as clear communication, providing adequate training, and seeking external support when necessary. The document stresses that persistence and a commitment to improvement are key to successful implementation.

4. The fourth part of the document discusses the ongoing monitoring and evaluation of the system. It explains that the system should not be set and forgotten. Regular reviews are necessary to ensure that the system remains effective and that any issues are promptly addressed. This section also highlights the importance of feedback from users, as their input can provide valuable insights into the system's performance and areas for improvement.

5. The fifth part of the document concludes with a summary of the key findings and recommendations. It reiterates the importance of a systematic approach to data collection and analysis and encourages the organization to continue to refine its processes over time. The document ends with a call to action, urging all stakeholders to work together to ensure the success of the initiative.

6. The sixth part of the document provides a detailed list of the resources and materials needed for the implementation of the system. This includes a list of software licenses, hardware requirements, and training materials. It also provides a timeline for the implementation process, outlining the key milestones and deadlines. This section is designed to serve as a practical guide for the organization, ensuring that all necessary resources are in place and that the implementation is completed on schedule.

7. The seventh part of the document discusses the future prospects of the system. It explores potential areas for expansion and improvement, such as integrating the system with other organizational systems or adding new features. It also discusses the long-term benefits of the system, such as increased efficiency, better decision-making, and improved transparency. The document ends with a final statement of commitment to the ongoing development and improvement of the system.

H-223 Richard O. (cont.)

8-6-1895, dau. of THOMAS SPENCER & MARGARET LANE. No issue. He was a research engineer with Okanite Cable Co. For a number of years he raised an improved strain of chickens for breeding stock at his home in Rhinebeck.

Came to Hawthorne School where he pioneered in the work being introduced by the Jewish Board of Guardians in the education and rehabilitation of problem children through social work and psychiatric help. One of his colleagues writes:

"Each man chooses his own way of relating to humankind. Richard Hasbrouck chose to make human relations his vocation.

"He devoted his working years to living with boys in an institution, boys who were sick in their hearts and minds. And an institution that was designed to heal and make them well through love, understanding, and education.

"Living and giving of one's self to boys unable to live with their own families or go to community schools is not an easy task. Richard found the sacrifices rewarding; the rewards were the minds and hearts he helped rebuild; the boys, now adults, who through the institution and men like Richard Hasbrouck, found their way back to life.

"Richard gave to boys who had known little of human relationships a feeling of strength and character in his being with them. Constantly immersed in innumerable hobbies, he was always the teacher as he shared his wisdom and inventiveness with them.

"I recall his creativity. There were very few things he could not do with tools and machinery, and many boys found vocation and hobby from the hours spent with him.

"Two things stand out in my memory:

"Universally the boys felt he was always fair. A very great compliment from youngsters who were so hurt that they mistrusted all adults.

"The other was his nickname which passed down over the years; he was 'The Mister'.

"And as I look back and remember Richard Hasbrouck, he was truly 'The Mister' to his boys. It meant strength, respect and character; ingredients very important in helping boys to live, and grow straight."

1. The first group of authors (e.g., [1, 2]) has shown that the use of a single factor model is not sufficient to explain the observed data. They have proposed a two-factor model, in which the first factor represents the common variance and the second factor represents the unique variance. This model has been found to be a good fit for the data.

4. In the case of a  $\mathbb{Q}$ -algebra  $A$  of rank  $n$ , the  $\mathbb{Q}$ -rank of  $A$  is the dimension of  $A$  as a  $\mathbb{Q}$ -vector space.

The Dallas newspapers of Nov. 6, 1955 carried the following  
 feature story: -"Dallas Times Herald"

"At his White Bear Lake farm near Minneapolis, Mr. Hasbrouck puttered at raising fowl. He excelled at entertaining Sunday visitors retreating to his porch from the city's summer heat. It was back in 1947 that a neighbor gave him a setting of English call ducks whose use in blinds to bring down other ducks is now against the law. The eggs hatched and the ducks multiplied around the farmyard for a couple of years. He clipped their wings and kept them with his chickens in the winter and they fattened and grew sassy in summer on corn and beer from front porch parties. To feather their nests, the ducks pulled tail feathers from the chickens. They acted belligerent.

"In 1949," he recalled merrily, "I decided to cross up nature by introducing a few white Pekins into the strain. I thought I could make a nice big, fat Mallard which I could deep freeze."

"Now the English call duck is a size smaller than a Mallard and walks about with a Groucho Marx stoop. The white Pekin stands erect, 18 or 20 inches tall with a military bearing.

"From this experiment he got what he calls penguins--black all the way down their backs, big orange bills, and almost white in front. 'They're twice as large as the biggest Mallard you ever saw,' he said. 'Every flight of wild ducks that went over would circle the place at least a couple of times. I thought mine were too big to fly.

"It was two years ago that the whole flock took off one evening before Mr. Hasbrouck could lock them in the barn.

.....Correspondence grew as the strange ducks were killed. Duck hunters were mystified. 'It's running them nuts', Mr. Hasbrouck said. His roaring laugh carried through the corridors of the Mercantile Securities Building where he is manager of Batton, Barton, Durstine and Osborn, Inc. advertising agency.

"But there is one way to settle the question of the origin of the strange migratory birds. 'Maybe a way to test the whole thing is to put a trough of beer and corn outside your shooting blind,' he said, 'then yell real loud. If they come in, chances are they come from White Bear Lake, Minnesota.

Mr. Snyder is proud that he has continued the cement business founded by his grandfather, Jacob Louw Snyder. The natural Rosendale cement was used for such structures as the Brooklyn Bridge, the Statue of Liberty, the Times Building, and others. With the discovery of Portland Cement, the business at Rosendale dwindled in the excitement over the new quick-drying material. However, Mr. Snyder never lost faith that the superior strength of the natural product would bring it again to the fore. He has

recently achieved a successful combination of the two types of cement, and his new Century Cement Co. plant will be able to produce both types.

Mr. Snyder's interest in his community is outstanding. He has served four terms as Supervisor of the Town of Rosendale, a generous supporter of all the churches of his town, of the Rosendale Public Library, and of the Kingston City Hospital. He has been vice-president of the Huguenot National Bank and is presently on the board of the State of New York National Bank.

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events for two groups: 'No feedback' and 'Feedback'. In the 'No feedback' group, a subject performs a task, receives a result, and then performs another task without knowing the result of the first. In the 'Feedback' group, a subject performs a task, receives a result, and then performs another task knowing the result of the first. The 'Feedback' group is further divided into 'Feedback (1)' and 'Feedback (2)'.

Let  $f(x) = x^2 + 1$ . Then  $f'(x) = 2x$ .  
At  $x = 1$ ,  $f(1) = 2$  and  $f'(1) = 2$ .  
The tangent line is  $y - 2 = 2(x - 1)$ , or  $y = 2x$ .

$$\frac{d}{dx} \left( \frac{1}{x^2} \right) = \frac{d}{dx} x^{-2} = -2x^{-3} = -\frac{2}{x^3}$$

$$\frac{d}{dx} \left( \frac{1}{x^3} \right) = -\frac{3}{x^4}$$

$$\frac{d}{dx} \left( \frac{1}{x^4} \right) = -\frac{4}{x^5}$$

Let  $f(x) = x^3 + 2x^2 - 5x + 7$ .

$$f'(x) = 3x^2 + 4x - 5$$

$$f''(x) = 6x + 4$$

$$f'''(x) = 6$$

1

$$f(1) = 1 + 2 - 5 + 7 = 5$$

$$f'(1) = 3 + 4 - 5 = 2$$

$$f''(1) = 6 + 4 = 10$$

$$f'''(1) = 6$$

$$f(2) = 8 + 8 - 10 + 7 = 13$$

$$f'(2) = 12 + 8 - 5 = 15$$

$$f''(2) = 12 + 4 = 16$$

$$f'''(2) = 6$$

$$f(3) = 27 + 18 - 15 + 7 = 37$$

$$f'(3) = 27 + 12 - 5 = 34$$

$$f''(3) = 18 + 4 = 22$$

$$f'''(3) = 6$$

$$f(4) = 64 + 32 - 20 + 7 = 83$$

$$f'(4) = 48 + 16 - 5 = 59$$

$$f''(4) = 24 + 4 = 28$$

$$f'''(4) = 6$$

$$f(5) = 125 + 50 - 25 + 7 = 157$$

$$f'(5) = 75 + 20 - 5 = 90$$

$$f''(5) = 30 + 4 = 34$$

$$f'''(5) = 6$$

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper bookkeeping is essential for the success of any business and for the protection of the interests of the owners and investors.

2. The second part of the document describes the various methods used to collect and analyze data. It includes a detailed explanation of the sampling process and the statistical techniques employed to interpret the results. The author notes that the data collected over a period of six months shows a clear upward trend in sales, which is attributed to the implementation of the new marketing strategy.

3. The third part of the document provides a comprehensive overview of the financial performance of the company. It includes a breakdown of the revenue, expenses, and profits for each quarter. The author concludes that the company has achieved a significant increase in profitability, which is a direct result of the cost-cutting measures and the expansion of the product line.

4. The fourth part of the document discusses the challenges faced by the company and the strategies used to overcome them. It highlights the importance of flexibility and innovation in the face of changing market conditions. The author also mentions the need for continuous improvement and the role of the management team in driving the company forward.

5. The fifth part of the document provides a summary of the findings and recommendations. It suggests that the company should continue to invest in research and development to stay ahead of the competition. The author also recommends that the company should focus on improving its customer service and building stronger relationships with its clients.

6. The sixth part of the document includes a list of references and a bibliography. It cites several books, articles, and reports that were used in the research. The author also includes a list of acknowledgments, thanking the staff and the board of directors for their support and contribution to the project.

7. The seventh part of the document is a conclusion. It summarizes the main points of the report and reiterates the author's findings. The author expresses confidence in the company's future and believes that the strategies outlined in the report will lead to continued growth and success.

8. The eighth part of the document is a list of appendices. It includes a detailed list of the data sources, a copy of the survey questionnaire, and a list of the interview transcripts. The author also includes a list of the names of the people who were involved in the research and a list of the dates when the data was collected.

9. The ninth part of the document is a list of footnotes. It provides additional information about the research and the data. The author also includes a list of the names of the people who were consulted for advice and a list of the dates when the consultations took place.

10. The tenth part of the document is a list of references. It includes a list of the books, articles, and reports that were used in the research. The author also includes a list of the names of the people who were consulted for advice and a list of the dates when the consultations took place.

# THEORY OF THE EARTH

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features.

1. The earth is a sphere.

2. The earth is composed of various layers.

The earth is a sphere, and its surface is covered by water. The water is divided into oceans and seas. The land is divided into continents and islands. The earth is composed of various layers, and each layer has its own characteristics.

3. The earth is divided into various parts.

4. The earth is a dynamic system.

The earth is a dynamic system, and it is constantly changing. The changes are caused by various factors, such as the movement of the tectonic plates, the erosion of the land, and the deposition of sediments.

1. The first group of people who are interested in the study of the history of the world are the historians. They are the people who study the past and write about it. They are the people who tell us what happened and why it happened. They are the people who help us to understand the world and ourselves.

What is the purpose of the study?

The purpose of the study is to investigate the effects of the treatment on the outcome.

The study was conducted in a randomized controlled trial design.

The results of the study show that the treatment group had a significantly better outcome than the control group.

The study was limited by a small sample size and a short follow-up period.

The findings of the study suggest that the treatment may be effective in improving the outcome.

Further research is needed to confirm the results of this study.

The study was funded by the National Institutes of Health.

The authors thank the participants for their contribution to the study.

The study was registered with the ClinicalTrials.gov database.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry must be clearly documented and verified by the relevant parties. This ensures transparency and accountability in the financial process.

The second part outlines the procedures for handling discrepancies. It states that any inconsistency found during the reconciliation process should be immediately reported to the supervisor. A thorough investigation must then be conducted to identify the source of the error and implement corrective measures to prevent future occurrences.

The third part details the requirements for the monthly financial review. It specifies that all department heads must submit a comprehensive report of their activities and financial status by the 15th of each month. These reports will be used to assess performance and allocate resources effectively.

The fourth part addresses the issue of budget management. It advises that all expenditures must be strictly adhered to the approved budget. Any request for additional funding must be supported by a detailed justification and approved by the finance committee.

The fifth part discusses the importance of regular communication and collaboration between departments. It encourages the sharing of information and best practices to improve overall efficiency and achieve the organization's goals.

The sixth part provides information about the upcoming fiscal year. It highlights the key objectives and priorities for the organization and invites all employees to contribute their ideas and efforts towards success.

The seventh part concludes the document by reiterating the commitment to excellence and integrity. It expresses confidence in the team's ability to overcome challenges and achieve outstanding results.

1. The first group of people who are interested in the study of the history of the world are the historians. They are the people who study the past and write about it. They are the people who tell us what happened and why it happened. They are the people who help us to understand the world and ourselves.

The first part of the paper is devoted to the study of the  
 properties of the function  $f(x)$  defined by the equation  

$$f(x) = \int_0^x \frac{1}{1+t^2} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $f(x)$  is an odd function and  
 that  $f(x) \in C^1(\mathbb{R})$ . The second part of the paper is devoted  
 to the study of the function  $g(x)$  defined by the equation  

$$g(x) = \int_0^x \frac{1}{1+t^4} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $g(x)$  is an even function and  
 that  $g(x) \in C^1(\mathbb{R})$ . The third part of the paper is devoted  
 to the study of the function  $h(x)$  defined by the equation  

$$h(x) = \int_0^x \frac{1}{1+t^6} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $h(x)$  is an odd function and  
 that  $h(x) \in C^1(\mathbb{R})$ . The fourth part of the paper is devoted  
 to the study of the function  $k(x)$  defined by the equation  

$$k(x) = \int_0^x \frac{1}{1+t^8} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $k(x)$  is an even function and  
 that  $k(x) \in C^1(\mathbb{R})$ . The fifth part of the paper is devoted  
 to the study of the function  $l(x)$  defined by the equation  

$$l(x) = \int_0^x \frac{1}{1+t^{10}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $l(x)$  is an odd function and  
 that  $l(x) \in C^1(\mathbb{R})$ . The sixth part of the paper is devoted  
 to the study of the function  $m(x)$  defined by the equation  

$$m(x) = \int_0^x \frac{1}{1+t^{12}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $m(x)$  is an even function and  
 that  $m(x) \in C^1(\mathbb{R})$ . The seventh part of the paper is devoted  
 to the study of the function  $n(x)$  defined by the equation  

$$n(x) = \int_0^x \frac{1}{1+t^{14}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $n(x)$  is an odd function and  
 that  $n(x) \in C^1(\mathbb{R})$ . The eighth part of the paper is devoted  
 to the study of the function  $o(x)$  defined by the equation  

$$o(x) = \int_0^x \frac{1}{1+t^{16}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $o(x)$  is an even function and  
 that  $o(x) \in C^1(\mathbb{R})$ . The ninth part of the paper is devoted  
 to the study of the function  $p(x)$  defined by the equation  

$$p(x) = \int_0^x \frac{1}{1+t^{18}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $p(x)$  is an odd function and  
 that  $p(x) \in C^1(\mathbb{R})$ . The tenth part of the paper is devoted  
 to the study of the function  $q(x)$  defined by the equation  

$$q(x) = \int_0^x \frac{1}{1+t^{20}} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $q(x)$  is an even function and  
 that  $q(x) \in C^1(\mathbb{R})$ .

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be carefully documented to ensure the integrity of the financial data. This includes recording dates, amounts, and the nature of the transactions.

The second part of the document provides a detailed breakdown of the various types of transactions that may occur. It categorizes them into different groups, such as sales, purchases, and transfers, and explains how each should be properly recorded. This section also includes examples of how to format entries to ensure clarity and consistency.

The third part of the document discusses the importance of regular reconciliation. It explains that comparing the recorded transactions with the actual bank statements and other external records is essential for identifying any discrepancies. This process helps to catch errors early and ensures that the financial records are always up-to-date and accurate.

The fourth part of the document provides a summary of the key points discussed and offers some final advice on how to maintain good financial practices. It encourages the reader to stay organized, be thorough, and always double-check their work to ensure the highest level of accuracy.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a presentation of the results of the study. It includes tables and graphs showing the data and the findings of the research.

4. The fourth part of the report is a discussion of the results and their implications. It discusses the strengths and limitations of the study and provides suggestions for future research.

5. The fifth part of the report is a conclusion. It summarizes the main findings of the study and provides a final statement on the importance of the research.

6. The sixth part of the report is a list of references. It includes all the sources of information used in the study, such as books, articles, and websites.

7. The seventh part of the report is an appendix. It includes any additional information that is relevant to the study, such as raw data, questionnaires, and interview transcripts.

8. The eighth part of the report is a glossary. It defines the key terms and concepts used in the study, ensuring that the reader understands the terminology.

9. The ninth part of the report is a bibliography. It lists all the sources of information used in the study, including books, articles, and websites.

10. The tenth part of the report is a list of figures and tables. It provides a summary of the data presented in the study, including the number of figures and tables and their locations in the report.

11. The eleventh part of the report is a list of abbreviations. It defines the abbreviations used in the study, ensuring that the reader understands the shorthand notation.

12. The twelfth part of the report is a list of acronyms. It defines the acronyms used in the study, ensuring that the reader understands the shorthand notation.

13. The thirteenth part of the report is a list of symbols. It defines the symbols used in the study, ensuring that the reader understands the shorthand notation.
